# Studio Star Measuring Instructions

**Type G:** Refer to standard Shutter Measuring Instruction

*Type R:*

- Choose measuring style : Opening / Finished
    - Opening size is preferred for ease of customer
- If choose **opening**, measure where the **blue** arrows are pointed only, or just the window shape no trim.
- If choose **finished**, measure where the **red** lines are, which in most cases is trim size. When doing finished, a box size must be chosen with this option. Also a 2" drop below window should be left for baseslat exposure.
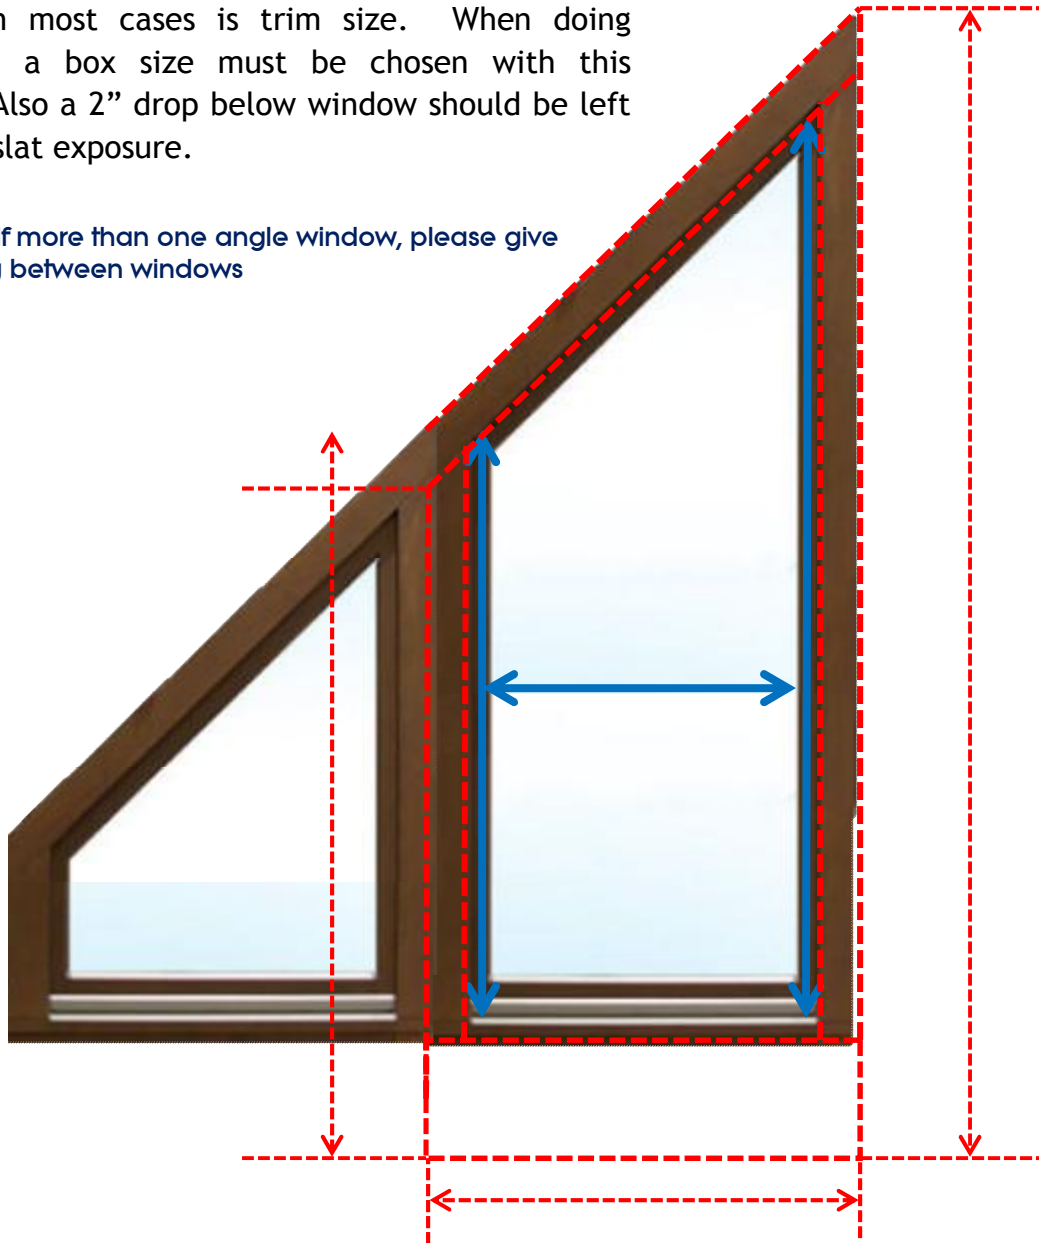

# Studio Star Measuring Instructions

*Type S or SI:*

- Choose measuring style : <u>Opening / Finished</u>
  - Opening size is preferred for ease of customer
- If choose opening, measure where the **blue** arrows are pointed only, or just the window shape no trim.
- If choose finished, measure where the **red** lines are, which in most cases is trim size. When doing finished, a box size must be chosen with this option. Also a 2" drop below window should be left for baseslat exposure.
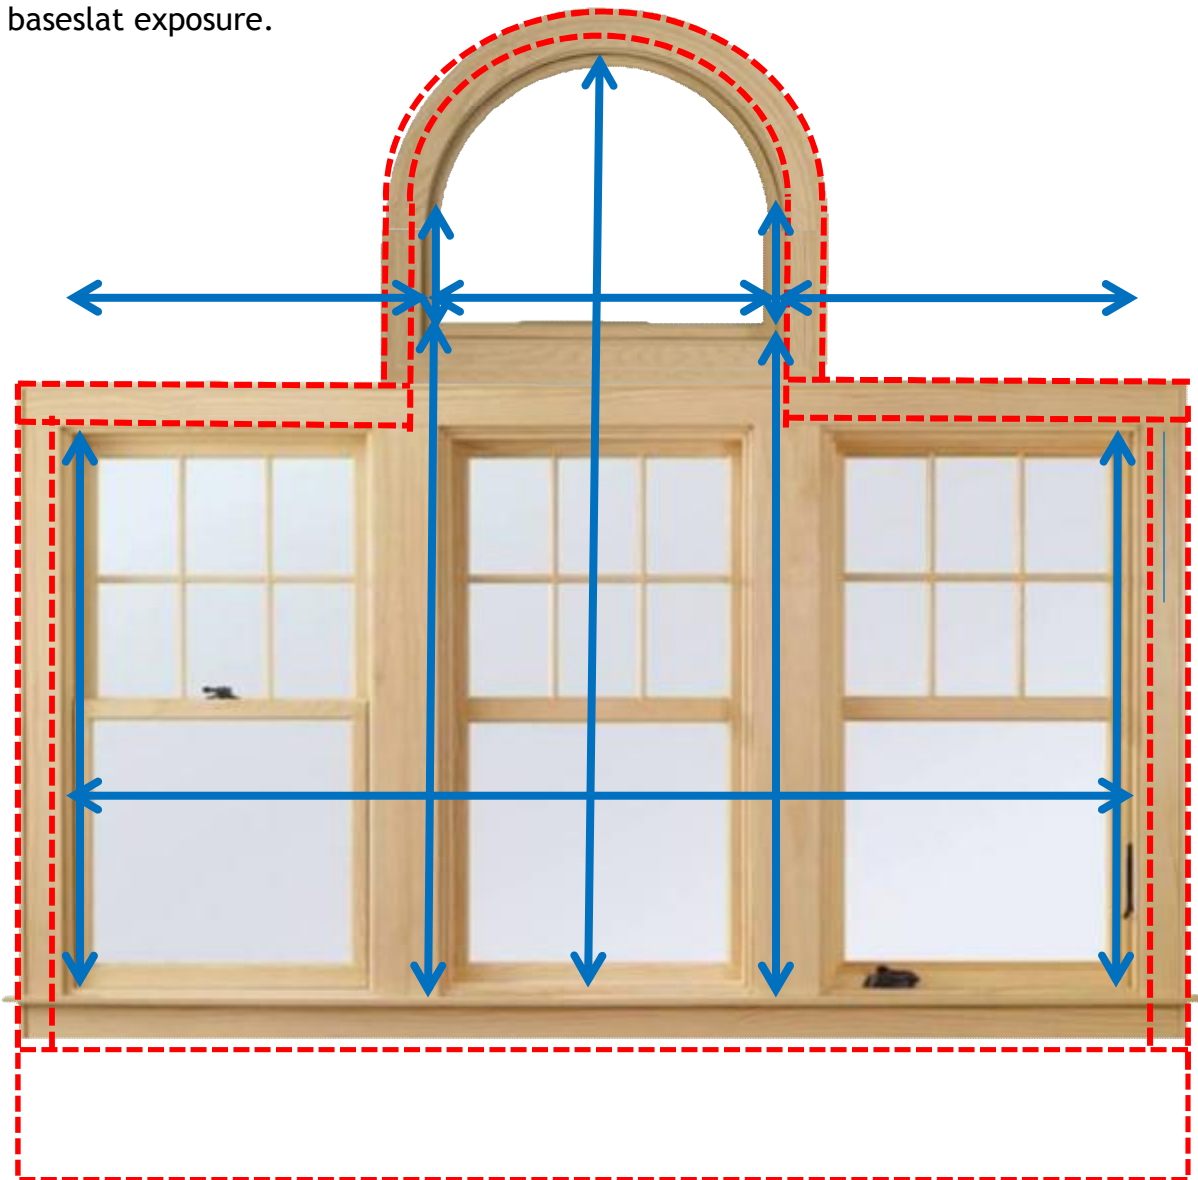

NOTE: if more than one angle window, please give Spacing between windows
